Log in to your cluster   ∧

1. **Launch the IBM Cloud Shell**
   For quick access in clusters with a public cloud service endpoint, use the IBM Cloud Shell. To download the CLI locally, see the docs.
   IBM Cloud Shell

2. **Set the context for your cluster in the IBM Cloud Shell**
   For more access options that vary with your cluster network setup, see the docs.
   ibmcloud ks cluster c... 📋

Deploy your app   ∧

1. **Set up your image registry**
   Store your images in a registry that the cluster can access to run containers.

2. **Deploy your app**
   Kubernetes dashboard

3. **Manage your app lifecycle**
   Keep your apps up to date with Kubernetes container orchestration
